# Lab 11 – Raven College Registration GUI

Maximum Points = 10

The purpose of this lab is to implement a **GUI** for a college registration system that uses three classes to code the GUI with one form. Follow the guidelines in chapter11 [pp. 790-814].

Test your program frequently and TEST WHAT YOU SUBMIT.

CORRECTIONS:

(Due before 11 pm on Sunday, April 13, 2014) Submit your files containing your program and design by zipping up the Project folder into a file named lab11ws.zip where ws are **your** initials. Upload the file to the dropbox in CougarView.

NOTE: Documentation must include

A) Program block:

```
'***************************************************************************
' PROGRAM:        program name
' AUTHOR:         your name              (give credit for any code that is not yours)
' DATE:           date of creation
' PURPOSE:        detailed description of program
'***************************************************************************
```

B) Every subroutine

```
'***************************************************************************
'detailed description of the subroutine's function
'               (give credit for any code that is not yours)
'***************************************************************************
```

Grades are determined using the following scale:

- Runs correctly.…………………:___/2
- Correct output.…….……………:___/2
- Design of output.………………:___/1.5
- Design of logic.…………………:___/2
- Standards.………………………:___/1.5
- Documentation.………………...:___/1
